

Atlas of Operative Proctology

A Stepwise Approach

"Atlas of Operative Proctology - A Stepwise Approach" is a vital and invaluable resource for surgical residents, aspiring surgeons, and general and colorectal surgeons looking to enhance their surgical skills in the field of proctology. The Atlas has been thoughtfully designed to provide a comprehensive and user-friendly guide for those interested in this specialized area of surgery. The Atlas covers operative procedures in 9 easy-to-understand chapters. Every operative procedure is explained in clear, concise steps corresponding to perioperative images. The latest technologies used in minimally invasive procedures have been discussed in detail in the Atlas coherently.

The highlight of this Atlas is the inclusion of over 40 operative videos explaining the technical nitty-gritty of the procedures. The QR code of these videos is provided at the bottom of the procedures. These videos will function as an operative guide for the readers. Tips and tricks from the experts follow each procedure.

The Atlas provides comprehensive coverage, clear explanations, and expert insight, making it a treasure trove of knowledge for the reader. The Atlas has been structured to ensure that it operates as a guide to carry to the operating theatre.

Kamal Gupta MS, FACS (USA), FAIS, FACRSI is a Consultant Colorectal Surgeon and Director at Karan Hospital, Jalandhar, Punjab, India. He was trained in lasers in Berlin, Germany, and his expertise lies in minimally invasive proctology. Dr. Gupta has completed a travelling fellowship in proctology from St. Mark's Hospital, London, UK. He has devised many procedures for the use of lasers in proctology.

Dr. Kamal is also the author of the textbook "Lasers in Proctology", published by Springer, the bestseller title in Colon and Rectal Surgery textbooks. "Lasers in Proctology" is a constructive resource for medical professionals seeking insights into the effective use of lasers in proctology.
